

GEERING

UP SPRING BREAK EVENTS

MIXING SCIENCE & ENGINEERING INTO A MORNING OF FUN!

Intro to AI and Machine Learning

This 4 hour, co-ed session will help you discover the digital skills driving the coolest communications and most imaginative innovations. We dive deep into Artificial Intelligence and learn all about Machine Learning!

Who is Intro to AI for?

Gr. 6-8

When? Monday, March 16.
10:30 am - 2:30 pm

Innovation Generation

3D modeling allows students to bring their creative ideas to life! This workshop will culminate in a design and build challenge where students will create their own projects with the help of 3D modeling software.
